J. Hunter & Associates

The above list of safety meeting topics can be done in any order.

General Shop or Light Manufacturing Suggested Minimum Monthly Meetings.

Bringing in Vendors or alternate presenters will help keep the meetings interesting.

Use the Sign In Safety Meeting Report for each meeting, have ALL attendees sign in (including managers and guests).

Reading the material followed by a group discussion is an easy way to present the material. The best meetings will encourage involvement from all attendees.

Subjects can be repeated, and should be reviewed or repeated if there was any incident or "near miss" .
